7/9/67

Dear Dave,

Here's the book. Thanks for the note. We have an index to II. Dell was to publish in their edition and didn't. We'll do it if we can be assured against loss. It is like the first, both name and subject.

I will be publishing all the source material for II as soon as I can, aside from what I have already published. This you will have an additional check on what I have covered. However, in some cases I worked too fast. I think some of the files should be gone over by others. I am fallible and not omniscient.

If you want suggestions when you go there, please let me know.

Liebeler has been strangely silent with all the recent attention. Intellectual laryngitis?

Sincerely,
